Claims rejection

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: said "adjacent position" to describe said source of the memory cell which lacks a relative element in the cell. The term adjacent raises an issue of "in relation to what" in order to make a complete sense of a given structure.

3. Claim 3 recites the limitation "at the adjacent position" in claim 3. There is insufficient antecedent basis for this limitation in the claim.

Claims 1-2, 4-12 are allowed.
